

MISSION

At EdAdvance's Special Education Services, we partner with K-12 school districts across the state to provide cost effective, superior quality programming that meets each special education student's individualized academic, emotional, social, behavioral, and transitional needs. We also work with districts' certified and non-certified staff to ensure that they are receiving the highest levels of training and support.

Our uniquely qualified professional staff collaborates with school district special education directors, teachers, parents/guardians, students, and specialized service providers to offer personalized instruction and supports for students.

Our staff also provides program development expertise, PPT facilitation, professional development, transportation, and personnel services to schools, districts, and regional organizations.

We were fortunate to have the Director of Special Services at EdAdvance conduct the Crisis Prevention Institute's (CPI) de-escalation training for Sherman School.

The emphasis on prevention of a crisis through the use of de-escalation strategies fit the philosophy and needs of our school perfectly. The ability to bring real-life experiences into CPI theories in a very "hands on" manner provided staff with new and better ways to defuse hostile behavior and keep some of our most challenging students calm and safe.

I highly recommend this outstanding program.

Lynn Fichtel
Director of Special Education
Sherman School

SERVICES

SOAR Regional Diagnostic & Learning Center

SOAR provides interim educational and related school services for students who are experiencing significant challenges in their home school districts or making a transition from one education setting to another. Our program offers extensive educational evaluations to give parents and teachers a better understanding of the academic and/or social development needs of a student. In addition, we offer personalized educational programs and tutoring for students.

The ACCESS School at the Dr. Danuta M. Thibodeau Education Center

These therapeutic K-12 educational programs provide specialized services for students with social, emotional, and behavioral needs that impact their ability to access a free, appropriate education in a traditional public school setting. The program is tailored to support each student's individual needs for personal and academic success.

Transportation Services

EdAdvance specializes in transporting students with special needs utilizing a fleet of vehicles equipped to provide safe, reliable, and cost effective services for the districts in our region. GPS tracking is used to accurately track billable hours to ensure districts are getting the best possible pricing for student transportation.

De-Escalation Training

In order to meet the requirements of Connecticut's Restraint and Seclusion laws, de-escalation training is available for any of your employees utilizing the Crisis Prevention Institute's (CPI) Non-Violent Crisis Intervention Program. This specialized training will help better prepare your staff to safely and effectively handle an agitated student.

Professional Development

Special Education Services provides targeted professional development for special education and related service staff that complies with current state and national standards. In addition, we develop customized professional development programs and one-to-one coaching based on your district's unique needs.

In District/Region Program Development

Our team is able to work with you and partner districts to develop specialized, schoolbased programs that can reduce the need for out-placement, as well as enable students to return to your district from an outplacement facility.

Complementary Programming

Our team has the expertise to assist you in developing programs that extend IEP services beyond the traditional school day and school year, including after school and extended school year programs.

Related Service Support

Special Education Services can provide you with the related service supports you need to meet the goals of any IEP. This includes BCBA consultations and planning, Speech & Language Pathology, Psychological Evaluations, Physical Therapy, and Occupational Therapy.

Personnel Services

Let EdAdvance fulfill your district's needs for non-certified support staff. We are available to provide "one-stop" service and handle the recruitment, employment screening, and hiring for you.
