Need to be Fingerprinted to Student Teach in a School?

Under two (2) Federal statutes, Adam Walsh Act "AWA" (paid position) or National Child Protection Act/Volunteers for Children's Act "NCPA/VCA" (unpaid position) and depending on the statute chosen by school district(s) where the student teacher is placed, students enrolled in a teacher preparation program attending a university/college are required to be fingerprinted within 30 days of performing a service involving direct student contact. This noncertified and nonpaid position in a school district is for students to complete their preparation requirements for the issuance of an educator certificate.

During a student's years of schooling, any additional school district(s) a student will be placed to student teacher, he/she will need to be fingerprinted again within 30 days of placement.

EdAdvance will fingerprint student teachers and forward their fingerprint card to the proper state and federal authorities for processing a criminal history check. The student's fingerprint results will be shared directly with the school district(s) reflected on their fingerprint card by the State Police Bureau of Identification "SPBI".
